Summary	BCA graduate with a solid foundation in web technologies, experienced in developing responsive, user-focused websites and applications. Skilled in HTML, CSS, JavaScript, React, and Tailwind CSS, with working knowledge of Express.js, Flask, and databases including MySQL, MongoDB, and SQLite.			
Education	Gulzar Group of Institutes	june 2022-june 2025		
	Bachelor of Computer Applications (BCA)			
	8.44			
	Ramgarhia Senior Secondary School, PSEB	2021-22		
	Senior Secondary (Class 12)			
	83%			
	Durgeshwari Bal Vidya Mandir, PSEB	2019-20		
	Secondary (Class 10)			
	90%			
Projects	Portfolio Website			
	- Designed and developed a fully responsive personal portfolio to showcase projects, About, Skills, Education, and contact details. Role: Sole developer — built the entire site from scratch using React, Tailwind CSS, React icons, React Toastify, EmailJS, focusing on modern UI design, smooth navigation, and mobile responsiveness, and deployed it using Vercel			
	Password Manager Web App			
	- Built a secure password management application with features to store, view, and manage credentials. Role: Sole developer — implemented the complete frontend using React.js and Tailwind CSS, and developed backend APIs with Express.js for storing and retrieving encrypted credentials.			
	AI Person Counter (Frontend Integration)			
	- Web application that detects and counts people in an uploaded or captured image using a pre-trained YOLOv8 model. Role: Developed the complete frontend in HTML, CSS, JavaScript for image upload/capture, and created backend APIs in Flask to handle image submission and return processed results with bounding boxes. Integrated both ends seamlessly (ML model and detection logic provided by mentor).			
	AI-Powered Plant Identification & Information System			
	- Web app that identifies plant species via CNN and provides details like origin, edibility, and medicinal uses. Role: Designed and developed the entire frontend with HTML, CSS, JavaScript and built backend APIs in Flask to handle image processing . Integrated both layers and added a Botpress chatbot for interactive plant-related queries.			
	Skills	Core Web Technologies		
		HTML5, CSS3, JavaScript (ES6+)		
Frontend Frameworks & Libraries				
React.js, Bootstrap, Tailwind CSS, Express.js, Flask				
Responsive Design & UI Development				
Flexbox, CSS Grid, Media Queries				
	Version Control & Tools			
	Git, GitHub			
Certifications	Summer Training in Web-Development
